Accounts Receivable Full Report

Month of July 2025

Accounts Receivable Performance As of 17 July 2025

- FTD receivables: **\$31,139,959**
- Total receivables: **\$42,463,864**
- Overdue receivables: **\$11,323,905 → ~27%**
- Top contributing sectors: **Retail, Hospitality, E-Commerce**
- Key Insight: **The majority of overdue amounts (\$11.3M) come from high-growth sectors like Retail, Hospitality, and E-Commerce.**

Aging Bucket Distribution

- The number of outstanding payments under **30 days** has increased by **296,057** in the hospitality industry.
- In the **retail** sector, the number of outstanding payments under **31-60 days** has decreased by **78,489**.
- A significant spike in overdue payments due within **0-30 days** suggests a potential liquidity or cash flow issue for retailers.

Sector-wise Aging Breakdown

- The number of overdue payments between 0-30 days in the retail industry has increased by 1,095,451.
- Despite this increase, the total amount owed by retailers with payments due after 31-60 days has actually decreased by 78,489.
- This surge in short-term overdue payments may indicate a growing risk of cash flow disruptions for retailers.

 Sector Aging Table

Sector	Currency	Total Due	Due 0-30 Days	Due 31-60 Days	Due 61-90 Days	Due 90+ Days
Retail	USD	35,339,708	25,082,099	9,099,222	1,037,278	121,108
Hospitality	USD	5,289,247	4,468,595	814,652	0	6,000
E-Commerce	USD	1,596,979	1,351,334	0	2,377	243,267
Starwood	USD	237,929	237,929	0	0	0

Inventory Report

Month of July 2025

Inventory Performance— As of 17 July 2025

- Total inventory value: **\$41.1 million**
- Inventory aged ≤30 days: **\$15.75 million**
- Inventory aged >90 days: **\$12.18 million (High risk of obsolescence)**
- Major stock locations:
- Virginia: **\$14.4M (Significant aging stock)**
- NFI Wh: **\$10.1M (Significant aging stock)**
- Wcoast: **\$8.9M**
- Key Insight: **The majority of inventory value, \$25.35M, is in aging categories beyond 90 days, largely stored in top warehouses such as Virginia and NFI Wh.**

Aging Bucket Donut

- Due date 0 30 saw a significant increase of \$821,888 compared to the previous day.
- Conversely, due date 31 90 experienced a decrease of \$473,333 compared to the previous day.
- A substantial amount of \$821,888 stuck in due date 0 30 poses a risk of tying up capital.

Warehouse Aging

- [NFI Wh](#) inventory decreased by [\\$190,557](#) compared to the same period last year.
- The average daily sales for [NFI Wh](#) are [22%](#) lower than last year's figures.
- Due to overdue payments, [NFI Wh](#) is facing a potential increase in bad debt costs.

Daily Net Inventory Change

- The Non-Fundamental Inventory (NFI) Wholesale account increased by \$390,441 compared to the previous day.
- The In-Transit account decreased by \$278,712 compared to the previous day.
- A significant net swing in the NFI Wholesale account may impact stock flow and pose a risk.
